## SILVER MEN WILL OWN DEMOCRATIC CONVENTION.

The Figures Are 573 to 328—Delegates Are Now All Elected—Richard P. Bland in the Lead For the Presidency—How the States Voted.

Chicago, June 26.—The last of the delegates to be elected to the democratic national convention were selected Thursday by the state conventions in Georgia and North Carolina. A canvass of the delegates of every state and territory on the currency question shows 578 delegates, either by instruction or personal preference, to be for the free, unlimited, and independent coinage of silver at a ratio of 16 to 1, against 328 delegates instructed for or favoring the continuance of the present gold standard. The following table shows the division of sentiment:

The above table is based on the unit rule being regarded by the delegates from states which so instructed. Michigan and Wisconsin instructed for gold, but some of the delegates personally favor free coinage. It is said they will fight the unit rule, and are likely to be upheld in their fight by the silver majority in the convention.

On the presidency some of the states are instructed for "favorite sons." Bland of Missouri will be supported by his own state, Kansas, and Texas and the territories, all of which are instructed for him. Four hundred and forty-four delegates are instructed on the presidency or have expressed their choice, against 462 without any particular choice.

The present known strength of the different candidates is as follows:

Richard Bland of Missouri	100
William C. Whitney of New York	72

**New Epworth Leaders Named.**  
Springfield, Ill., June 26.—At 5 o'clock Thursday morning about 60 members of the Epworth League met at the state house for a sunrise praise meeting, which was conducted by J. F. Cummings of Streator. At the morning session the following officers were elected: President, the Rev. F. B. Taylor of Lincoln; vice-presidents, the Rev. P. M. Hamilton of Jerseyville, Miss Effie Osborne of Shelbyville, C. W. Whipple of Rockford, and Miss Mary Haynie of Chicago; treasurer, the Rev. F. L. West of Centralia; junior league superintendent, Miss Libbie Hampshire of Monmouth. The sessions close tonight.

**Ready to Hear from Builders.**  
Washington, June 26.—The department has issued advertisements calling for proposals for constructing three battleships of about 11,000 tons each displacement. The bids are required to be submitted by Monday, Sept. 14. The features of the new ships have been made public already.

# MASON AND BRYAN DEBATE.

## Chicagoan and Nebraskan Are Heard at Waterloo, Iowa.

Waterloo, Iowa, June 26.—The fourth annual session of the Waterloo Chautauqua assembly was opened Thursday with a debate on silver by ex-Congressman W. J. Bryan of Nebraska and W. E. Mason of Chicago. Mr. Bryan took the ground that the people need cheaper money, that it requires too much of the products of the farm and factory to purchase a dollar in money, and that, while a dollar of the United States will buy two Mexican dollars, it will also buy two bushels of the farmers' wheat. He admitted that he would favor the free coinage by the United States of foreign silver even while other nations would not grant our silver free coinage in their mints, for he believed it would benefit our people to have the money here.

Mr. Mason combated the idea of free coinage being beneficial to the people, and said that even if silver were piled in the treasury as high as Washington's monument it would be of no benefit to the man who was out of a job. The trouble was that democratic tariff legislation had given the American laboring men's jobs to aliens, and that was what caused these troublous times rather than the money question.

# MONEY FOR SUNDAY SCHOOLS.

## Treasurer's Report at Boston Shows Financial Condition.

Boston, Mass., June 26.—The same intense enthusiasm and the same vast throng gathered Thursday in Tremont temple, three big halls and in the Park Street church and discussed Sunday school work. Treasurer L. H. Bigelow of New York reported receipt of \$2,410 during the last five years for the expenses of the lesson committee and a balance of \$2,953 in the treasury.

In the general report he showed that he had received from the several states sums amounting to \$3,265. The treasurer reported the total receipts as \$21,861.38. And that after paying every debt there is now a balance on hand of \$108.41.

B. F. Jacobs, in making an appeal for money pledges, stated \$2,300 solemnly pledged at St. Louis had not been paid, and he called attention to the fact that at least \$20,000 per year must be made. A call of the roll by states was made and pledges for \$3,920 were handed in, Illinois, New Jersey, Pennsylvania and New York each pledging \$1,000.

# LAURIER IS FOR REFORM.

## New Premier of Canada Briefly Outlines His Policy.

Montreal, Que., June 26.—The Hon. Wilfred Laurier, premier-elect, arrived from Quebec Thursday and spoke as follows concerning the program of the incoming government:

"We have been elected on the platform of tariff reform, and it is on those lines that we intend to work. We shall apply ourselves at once to the revision of the tariff, but whatever we do will be done gradually and slowly and no steps will be taken likely to affect any particular interest without due notice having been given so that all concerned may know what our intentions are and why we consider it expedient to make the changes contemplated."

With regard to the school question Mr. Laurier stated that it would be settled in the house of commons. He has not yet decided upon the composition of the coming liberal cabinet.

# TAKES ARMS TO CUBA.

## Steamer Commodore Gets Away from Tampa, Fla.

Tampa, Fla., June 26.—The steamer Commodore cleared Wednesday for Charleston. She was instructed not to sail without reporting to Captain Thomas Hanks of the revenue cutter McLane. Yesterday afternoon the Commodore weighed anchor, and went down the bay. The McLane signaled twice for her to stop. She did not, and the McLane fired a blank shot, but got no answer. A second blank shot was then fired, with a like result. A solid shot was then fired, and missed the Commodore by about seven feet. She stopped suddenly, and was boarded by the revenue men, and found all right. She then went down the bay about five miles, and was boarded by two sloops. When about two miles away the McLane gave chase, and pursued and pursuer have not been heard from since.

# Carlisle Denies the Story.

Washington, June 26.—Secretary Carlisle emphatically denies the statements attributed to him by H. H. Smith, ex-journal clerk of the house of representatives, in an interview at Kalamazoo, Mich. Mr. Smith stated that the secretary told him last winter that if the Chicago convention declared for free-silver he would support McKinley. Mr. Carlisle says he has not talked with Mr. Smith for two years, and added that the latter's statement was a gratuitous and malicious falsehood.

# Indiana Epworth League.

Anderson, Ind., June 26.—The sixth biennial mass meeting of the Indiana Epworth league was opened in this city Thursday. The first Evangelical service was held by Rev. Henry Ostrum of Milwaukee. The evening service consisted of a song service, led by a chorus of 300, under the direction of Prof. Shook of Terre Haute; a devotional service conducted by Lieut. H. M. McIntosh of Indianapolis and addresses of welcome.

# STATE OF GEORGIA GOES FOR SILVER

## STATE CONVENTION DECLARES FOR 16 TO 1.

The Full State Ticket Nominated—North Carolina Democrats Favor The White Metal—No Fusion in Alabama—General Political News Gathered in Many States.

Macon, Ga., June 26.—The democratic state convention was called to order Thursday by Chairman Steve Clay. J. W. Wilson of Clay county was made temporary chairman, and Chairman Clay of the state executive committee was made permanent chairman and re-elected chairman of the state executive committee. The following state officers were nominated in a bunch: Governor, W. Y. Atkinson; secretary of state, A. B. Candler; attorney general, J. M. Terrell; commissioner of agriculture, R. T. Nesbitt; comptroller general, W. A. Wright. W. J. Speer was nominated for state treasurer, the present incumbent, W. R. Hardman, retiring. The platform declares for the free, unlimited and independent coinage of silver at the ratio of 16 to 1.

# INDIANA GOLD MEN UNEASY.

## Many of Them Are Inclined to Bolt the Silver Men's Ticket.

Indianapolis, Ind., June 26.—The administration democrats of Indiana will not decide what course they will pursue until after the Chicago convention. Many of them are said to be inclined to bolt the ticket nominated Wednesday, although such men as Thomas Taggart, chairman of the state committee of the gold democrats, and Sterling R. Holt, chairman of the regular state committee, declare in favor of supporting the ticket.

There are indications that there will be trouble between the state committee of the free silver people and the regular state committee. Including the committee appointed a few weeks ago to represent the administration democrats there are three democratic state committees in existence. It is the general desire to keep peace in the family until after the effort to nominate Matthews for president has been made. It has been decided that Senator Turple shall put Gov. Matthews in nomination. Senator Voorhees was to have made his speech, but his health is so bad that he will not be able to attend the convention.

# United in North Carolina.

Raleigh, N. C., June 26.—The democratic state convention met Thursday. The financial plank favors both gold and silver as primary money and advocates free coinage of silver at a ratio of 16 to 1. After the committee offered its report Col. Paul B. Means of Cabarrus precipitated the financial question by offering a straight gold-standard amendment for the silver section. The gold plank was lost by a vote of 875 to 31. Cyrus B. Watson of Forsyth was nominated for governor and Thomas W. Mason of Northampton for lieutenant-governor.

# Will Unite in Alabama.

Birmingham, Ala., June 26.—The republican state executive committee met here this week, finishing its labors Thursday. It was decided not to bring out a "sound-money" straight republican ticket, but the fusion state ticket, headed by Congressman A. T. Goodwin, populist, for governor, will be supported, and in return it will be expected that the populists will vote for the republican electoral ticket in November. If the Chicago convention adopts a free-silver coinage platform the possibilities are that the republican electoral ticket in Alabama will be elected.

# League May Meet in Peoria.

Peoria, Ill., June 26.—Fitch C. Cook has received notice that the executive committee of the Illinois League of Republican clubs will meet July 6 to select the time and place of the next convention. Peoria has been asked to submit a proposition of what it will do in the way of hotel and hall accommodations, and the indications are at present that the convention will meet here. Mr. Hobart, candidate for vice-president, is expected to attend the convention.

# Contest for Free Silver.

Huron, S. D., June 26.—Several members of the contesting delegation from this state to the national democratic convention met here Thursday and formulated a protest, naming Dr. V. Sabin Ross of Yankton to present it. It asks for a recognition of the silver delegation and for a free coinage silver plank at a ratio of 16 to 1 in the Chicago platform. He has canvassed the state and he says that four-fifths of the democratic party are advocating free silver, and all the democratic papers in the state except one are for free silver.

# Silver Men Enthusiastic.

Denver, Col., June 26.—The state silver convention was called to order in the Broadway theater Thursday by I. W. Stephens, member of the national silver party. There were 710 delegates present. The feature of the afternoon was an address by ex-Congressman Life Pence, who paid a tribute to Senator Teller and his western followers who bolted the national republican convention. Delegates to the national silver convention to be held at St. Louis were chosen.

# STAY BY PROTOCOL OVER IN MADRID

## SPANISH SENATE STICKS TO AGREEMENT OF 1877.

Senator Gomaz' Motion Is Defeated—Great Britain Appeals to Secretary Olney to Secure the Release of Harrison From Venezuelan Authorities and Steps Are Taken.

Madrid, June 26.—The senate, by a vote of 88 to 44, has rejected the motion made by Senator Comas last Monday, during the discussion of the Alliance incident, providing for an amendment to the royal address demanding that the protocol of 1877 with the United States be renounced in view of the inequality of the rights of Spanish and American citizens under the present conditions.

# BRITAIN'S APPEAL TO OLNEY.

## United States Asked to Secure Release of Crown Surveyor in Venezuela.

Washington, June 26.—Secretary Olney has received calls from Sir Julian Pauncefote, the British ambassador, and Minister Andrade of Venezuela, with both of whom he conferred separately, concerning the arrest by Venezuelan troops of the British crown surveyor, Harrison, on the British-Venezuelan boundary. It is understood that Sir Julian, acting under instructions from the British foreign office, requested the friendly intervention of the United States toward securing the release of Harrison, as was done by the British authorities in behalf of the American, John Hays Hammond, during the Transvaal uprising.

Mr. Andrade was first at the department, so that at the time of his call the British request had not been submitted. His view was that the affair had been magnified and that it was lacking in circumstances of serious indignity or wrong to the British.

Sir Julian's call was made an hour after Mr. Andrade had left. The exact nature of the British request was not made public, but its essential feature was a request for friendly intervention by the United States. Owing to the British-Venezuelan trouble the British have no minister or consul in Venezuela, so that it is necessary for an outside power to act for them in any transaction with Venezuela. Germany heretofore has acted in this capacity for the British, but the interest and influence which the United States has with Venezuela evidently inclined the British to seek the good offices of this country rather than those of Germany.

It is believed that Secretary Olney already has taken steps to communicate with the Venezuelan government through the medium of the United States minister at Caracas. The interview between Secretary Olney and Sir Julian lasted half an hour, and on neither side was there any disposition to make public anything as to its nature. There is reason to believe, however, that a solution of the present difficulty is expected within two or three days.

# MURDERER SUICIDES.

## Milton B. Wells Hangs Himself in His Cell at Elkhart, Ind.

Elkhart, Ind., June 26.—Milton B. Wells, the murderer of Jennie Walters, was found dead in his cell at the county jail Thursday. He has made a rope from the bed clothes and hung himself sometime during the night. He was found by the sheriff about 5 o'clock dangling in his cell. Wells left a statement denying that he was guilty of the murder. His trial was to have begun July 6.

About a week ago Wells, who was infatuated with Miss Walters, invited her to his house to get a chair which he had promised to give her. As soon as she entered he threw kerosene on her clothing and set fire to it. She was burned so badly that she died within an hour. The house caught fire, and when neighbors, attracted by the girl's screams, ran in, they found Wells watching her agony and making no effort to extinguish the flames. He at first admitted his crime, but after his arrest denied it. He was a widower and bore a good reputation.

# Confederate General Dead.

New York, June 26.—Gustavus W. Smith, who was a Major General in the Southern army during the civil war, is dead at his home in this city. He was born in Kentucky in 1821, and was graduated from West Point in 1842. He served with Scott in Mexico, and was street commissioner of New York when Fernando Wood was mayor. He resigned his position here to go South in May, 1861. He was in command of the Southern forces at the battle of Fair Oaks, after General Joseph E. Johnston was wounded. He returned to this city in 1876, and in 1888 his political disabilities were removed by act of Congress.

# New Trial Asked for Walling.

Newport, Ky., June 26.—In the Circuit court Colonel Washington argued before Judge Helm a motion for a new trial of Alonzo Walling, convicted of the murder of Pearl Bryan. The chief grounds were that Jurors R. H. Miles and James I. Ware had expressed opinions during the Scott Jackson trial that both Walling and Jackson were guilty and should be hanged. These jurors and the witnesses against them will appear before Judge Helm next Monday.

# WILL FIGHT A FINISH.

## Corbett and Sharkey Matched—Champion Wants to Regain His Reputation.

San Francisco, Cal., June 26.—Tom Sharkey is the hero of San Francisco. Nothing but the four-round contest on Wednesday night is discussed on street corners and in all public places. The general opinion is that Corbett's star is setting. Sharkey is confident that he can beat him in a finish battle. In an interview Corbett claims that he was in no condition for such a contest, and admits that he was dead tired in the fourth round. He says that he did not do himself justice, but he feels his position keenly, and early in the day sent for Dan Lynch, Sharkey's backer, to talk about the \$10,000 challenge. It was decided that the mill should take place in either the United States or Mexico inside of six months for \$10,000 a side and the biggest purse offered by any club or individual. The fight is to be according to marquis of Queensberry rules.

Corbett's share of the gate receipts Wednesday amounted to a trifle over \$7,000, but he has lost ten times this amount in reputation, and hundreds who witnessed the contest say that Corbett has seen his day.

# BASEBALL REPORT.

## Games Played in the National League Yesterday.

By the win from Pittsburgh the Colts slid up two notches in the scale, while all the top-notchers made a day's march on the Orioles, who camped because of rain. The margin between the upper nine is standing still, and a few rightly distributed victories and defeats would change the whole face of the race. From the ball they are playing the conclusion that the Colts are in for a long sojourn above the 500 mark is justified. Yesterday's games:

# CYCLONE CELLARS IN DEMAND

## Violent Storm Destroys Property at Creston, Iowa.

Creston, Iowa, June 26.—A tornado struck Creston at midnight Wednesday and in five minutes about \$15,000 worth of property had been damaged. During the storm, which was of short duration, the wind attained a velocity of seventy miles an hour, and buildings in its path were either razed to the ground or partially wrecked. When the storm broke hundreds of citizens deserted their homes for caves and cellars. It is impossible to accurately arrive at the loss. Falling walls broke telephone and electric light wires, and the city was in darkness and without communication. The storm was the most severe ever sustained here. Reports from the country are to the effect that the oat crop is greatly damaged.

# Holt Will Declared a Fraud.

Washington, June 26.—After a trial lasting almost six weeks the famous Holt will case came to an end last night. The jury after being out three hours returned a verdict giving it as their opinion that the late judge had not written and executed the alleged will bearing date of Feb. 7, 1873. The result of the verdict is to give the estate to the heirs at law.

# Iowa County Storm Swept.

Emmetsburg, Iowa, June 26.—A terrific hailstorm struck the east corner of Palo Alto county at 10:30 o'clock Wednesday night, and in about five minutes wiped out the vegetation on a strip of country about three miles wide and ten miles long in this county. The storm was traveling from northwest to southeast, in a thickly settled country. The losses are heavy, but quite generally insured.

# Lynch Trunk Buried.

Chicago, June 26.—The funeral services over the remains of Lyman Trunk, who died at 3:15 o'clock Wednesday morning, were held this afternoon. They were of an exceedingly simple nature, in accordance with his own request before death, and by the desire of the family.

# Americans Are All Safe.

Boston, Mass., June 26.—The American board has received a cable dispatch from Rev. George C. Reynolds, M. D., of Van, Eastern Turkey, which says: "Ninth day of disturbance; comparative quiet restored; Americans safe."

# FIRE AT APPLETON DID MUCH DAMAGE

## BIG SLAUGHTER HOUSE AND BARN BURNED.

Cattle and Hogs Are Roasted and the Loss Is \$10,000 With \$4,000 Insurance—Appleton Cycler Run Down By a Hack—Other State Specials.

Appleton Wis., June 26.—[Special]—Kuepene Bros. slaughter house, barns and ice house, located just outside of the city limits burned last night. No water was available and the building and its contents were totally destroyed, including several head of cattle and a few sheep and pigs that were in the barns. # Appleton Biker Hurt.

Appleton, Wis., June 26.—[Special] George E. Birmingham, while riding his bicycle on College avenue today, was run over by a hack, which came around the corner, with the horses at a gallop. Birmingham received a bad scalp wound, besides having his shoulder broken and his hand crushed. The effect of his injuries cannot yet be decided but his condition is critical.

# Village Bonds Invalid.

Madison, Wis., June 26.—The Supreme court of Wisconsin has caused a sensation by its decision declaring invalid the corporation of the village of North Milwaukee. The decision, by holding invalid the act authorizing circuit courts to incorporate villages, wipes out nearly every village government in Wisconsin and brings grave doubts whether the bonded indebtedness of these bodies will ever be paid. Many of the villages affected by this decision have borrowed large sums of money upon bonds now held by parties in Chicago. It is said that there will be an effort to get a rehearing of the case to relieve the financial difficulties of the villages until the legislature convenes, and that failing, an extra session of the legislature is strongly talked of. The decision is said to be one of the most sweeping ever issued from the Wisconsin Supreme court. It affects not only the villages incorporated since 1858, but it also affects every city of the second and third class in the state.

# Northwestern Crops Are Healthy.

Milwaukee, Wis., June 26.—President Roswell Miller and General Manager Earling of the Chicago, Milwaukee and St. Paul railroad, who have just returned from a general tour over the western and northwestern portions of the system, state that the general crop outlook throughout the west and northwest was never better or more promising than at the present time. They found the crops in the very best condition everywhere during about a week's travel over a large portion of the system, and say it is apparent that if nothing intervenes to change the prospect, the crop will be larger and better than ever this year.

# Evangelical Lutheran Synod.

Fond du Lac, Wis., June 26.—The Evangelical Lutheran synod of Wisconsin, Minnesota, Illinois, Michigan and Nebraska is holding its thirty-third annual session in this city. The roll call was responded to by 115 of the clergy, 75 laymen and 40 teachers.

# Sheriff's Murderers Caught.

Arlington, Minn., June 26.—The two tramps who fired four shots into the body of Sheriff Rogers last Wednesday afternoon near Glencoe, McLeod county, killing him instantly, were captured Thursday five miles west of Arlington by a sheriff's posse of 200 men. Both McLeod and Sibley counties are aroused over the cold-blooded murder, and it is feared the officers here will be unable to prevent a lynching. Over 200 infuriated men are reported on the way here from Glencoe and Hutchinson, determined to hang the vagrants. The tramps have so far refused to give their names.

# Advise Miners Not to Parade.

Columbus, Ohio, June 26.—The committee in charge of the local celebration of the Fourth of July had arranged for 100 miners from the valley to march in the parade in their mining outfits and with their mining lamps in their hats, but President Fenna of the United Mine Workers of America advised them not to do it. He says that by doing this they would proclaim themselves beneficiaries of the declaration of independence, whereas they are mere serfs and would in that way act a lie.

## OUTING CLUB MEETS FOR THE FIRST TIME

PLEASANT SOCIAL EVENT AT  
CRYSTAL SPRINGS.

The Excursions Will Be Given On the Second and Fourth Tuesdays Hereafter—A Three Course Dinner Served, and Plans For Future Fun Are Made.

The first excursion given by the Outing club occurred last night, and the new organization promises much for the members. The first meeting was held at Crystal Springs park, and the Steamer Columbia left the dock, with her jolly load, at 5:30 o'clock. Half an hour later found the revelers seated at one of the long tables at Captain Buchholz' pleasant resort, while W. A. Jackson and H. S. Sloan, served the three course dinner, made up from the baskets that had been brought along. The feast was elaborate and the service excellent, and after the good things had been fully discussed, the party turned its attention to the bowling alley and other amusements. At 8:30 dancing began in the pavillion. Dutton's orchestra furnished excellent music.

A business meeting was held during the dance. M. G. Jeffris was chosen as temporary chairman, and called the meeting to order. Stanley B. Smith was the first man recognized by the chair, and he moved that the organization be bonded for \$10,000. This proposition, however, was voted down. An executive committee was named, consisting of John V. Norcross, chairman, H. G. Carter, and H. S. Sloan. It was also decided to meet on the second and fourth Tuesdays, and the boat will leave promptly at 5 p. m. A vote of thanks was tendered Mr. Jeffris for presiding; the orchestra again struck up; and dancing continued until the time for home going. Those present were:

#### PATRIOTIC GATHERING IN THE TOWN OF HARMONY.

School District No. 7 the Scene of Soul

Stirring Exercises Today—Dinner Eaten In Spalding's Lake Shade—Speeches by Prominent Men—Those Who Attended.

Throbbing drum beats and the shrill piping of the fife echoed through the woods and over the dales in the town of Harmony today. Patriotic speeches were made, and a stately banner was run to the top of a staff. Janesville Grand Army men took a prominent part, but others were equally active and enthusiastic. The occasion was a flag raising at the school house in district No. 7. The exercises began at the school house at 10:45 o'clock this morning, and at noon the crowd adjourned to Spalding's lake, where a genuine Grand Army dinner was served under the trees. Speeches were made by many, among the speakers being Prof. L. K. Gettle of Madison, Surgeon General J. B. Whiting, Rev. S. G. Huey, of the Rock Prairie church, Capt. Pliny Norcross, and Professor Albert Salisbury, of the Whitewater Normal school. The Milton and Janesville Grand Army posts attended and the Janesville drum corps furnished the martial music. Col. E. O. Kimberley was also on the program for several vocal numbers.

The Janesville Post and W. B. C. attended nearly in a body. Both organizations met at Post hall this morning and in decorated carryalls left for the scene at 9 o'clock. The delegation included:

LAD'S HEAD CUT BY A PULLEY.

Rockwood Porter Meets With an Accident While at Play.

Rockwood Porter, while playing around the wagon and hay loader in a field on his father's farm near Evansville, met with quite a distressing accident. By some means a rope tackle became disarranged and an iron pulley fell 30 feet, striking the little boy squarely on top of the head cutting his scalp to the bone. Dr. Stair, of Evansville, dressed the injury.

### LEAF TRADE BETTER THAN IT HAS BEEN

#### INCREASED ACTIVITY IS NOW APPARENT.

Occasionally An Eastern Dealer Is Seen In the Market—The Local Sales Reported—Plants Are a Month Ahead of Time—Transplanting Is About Finished.

The Janesville Tobacco Leaf says that local market conditions have made a change for the better, and an increased activity is to be noted. To be sure the change is not very great, still it is sufficient to inspire a feeling of confidence in the future. An occasional eastern dealer is seen in this market, and they all make purchases. This, with the ever increasing activity of eastern markets are lending some encouragement to local leaf men.

Among the sales reported are: 40 cases by J. L. and M. F. Greene; 50 cases of '93 by A. N. Jones and a car of strips by S. B. Heddles. Rudolph, Haviland & Son, George H. Rumrill and J. B. Dearborn have sold several lots. F. S. Baines purchased 100 cases of '93 and '94 at Stoughton.

The weather continues favorable to the growing plants and many of them are a full month ahead of the average season. Transplanting is about done, for this year.

A. N. Jones shipped a car of '95 this week.

Word has been received from Colorado that J. H. Haviland is improving and that gentleman's friends hope that he may continue to improve.

### WATER OF MANY CITIES ANALYZED

State Board of Health Searching For Typhoid Fever Germs.

Analysis of the water supply at Neillsville, Gratoit, Mt. Calvary, Janesville, Richland Center, Dodgeville, Montello, Waukesha, Fairchild, Appleton and Ashland were submitted to the State Board of Health at its meeting at Milwaukee yesterday. The session was the semi-annual meeting, and Dr. Solon Marks, president, and U. O. B. Wingate, secretary, both of Milwaukee; Dr. C. H. Marquardt, of LaCrosse, and Dr. Q. O. Sutherland of Janesville, were present. Dr. F. H. Bodenius of Madison, is absent in Europe, and Dr. McNeel of Fond du Lac, and Dr. Harrison of Ashland, did not attend. The business to come up is of a strictly technical character.

The secretary made a verbal report, showing that there were 1,100 local boards of health regularly organized in the state, but that there should be under the requirements of the law, 1,250.

An analysis of the water at Ashland is being made every day by the health officers for the purpose of showing the efficiency of a new method of filtering and the results show a steady improvement. The board will consider the matter of issuing a circular in relation to the prevalence of typhoid fever. While there is very little of the disease prevailing at the present time, it being out of season, there has been an increase of cases each year, and the board will call attention to this and urge as a preventive that more care be taken with the water supplies.

Eli Hill, Lumber City, Pa., writes: "I have been suffering from piles for twenty-five years and thought my case incurable. DeWitt's Witch Hazel Salve was recommended to me as a pile cure, so I bought a box and it performed a permanent cure." This is only one of thousands of similar cases. Eczema, sores and skin diseases yield quickly when it is used. C. D. Stevens.

"I am glad to know it," she resumed, shortly afterward, as she arranged her hair. "There is nothing like being close mouthed."

So he acted on that hint also.—N. Y. Recorder.

## MURDERER'S BABES TAKEN IN CHARGE

THEIR MOTHER DEAD, AND  
FATHER IN JAIL.

Children of J. H. Webb of British Hollow Are Cared For By the Children's Home Society, Although the Father Would Not Let Them Go At First.

The three homeless children of a murderer passed through Janesville today. They were:

Florence Webb, aged 10 years.  
Ida Webb, aged 8 years.  
Milo Webb, aged 5 years.

The little ones were children of John H. Webb, who is in jail at Lancaster charged with killing May Blenden at British Hollow, Grant county, four weeks ago. The killing grew out of a trivial matter, and was said to be accidental. Webb lived alone with his children, his wife having died about a year ago. One day the children found a dead kitten on the veranda of the Webb house, and told their father. It was charged that the children of a neighbor placed the kitten on the porch, and angry words followed. Webb and the neighbor argued the question for a time, and just what followed, cannot be accurately told. Webb drew his revolver, and began shooting. The neighbor got a bullet in his arm, and the little blind girl, who was standing in the street, was instantly killed by one of the shots. Her father was the postmaster and storekeeper in the village, and excitement was high for a time.

No One To Care For The Orphans. Webb was arrested and locked up in jail, so there was no one to care for his little ones. The neighbors looked after them for a time and then notified the Children's Home Society, of Milwaukee, of the case. Rev. William Woodmansee, the assistant superintendent went to Lancaster and saw Webb, telling him that the society would care for the babes, and provide good homes for them. At first Webb refused to listen to the proposition, but was finally convinced that it was the best thing to do, so the children were turned over to Mr. Woodmansee. The party passed through Janesville on the morning train, en route for Milwaukee, and the children attracted considerable attention at the depot.

"It is a sad case," said Rev. Mr. Woodmansee, to a Gazette reporter. "The poor little ones had neither father nor mother to care for them, although the neighbors had rendered them every service possible. Of course they could not keep them much longer, so we were appealed to. I had some difficulty in getting Mr. Webb's consent. He seems to think everything of the children, and hated to part with them."

COAL TAKES A JUMP

An Advance of 25 Cents a Ton to Take Effect at Once.

An advance of 25 cents on hard coal was announced to Janesville dealers today, the new quotation taking effect at once. Local yards now must pay \$8.80 a ton for coal on the Janesville tracks. The coal combination is unusually rigid this year and eastern advices are that that there will be no break, such as brought coal to \$5.50 on the track in Milton last winter.

INSURANCE COMPANY MUST PAY

Edgerton Woman Will Recover the Face of Her Husband's Life Policy.

Mrs. O. I. Jacobus of Edgerton, received a dispatch from her attorney in Chicago, stating that a decision of the United States court had awarded her a judgment in a case pending to recover life insurance carried by her husband. The action was against the Northwestern Masonic Insurance Company of Chicago, which had contested payment on the alleged ground that the policy had lapsed. The court has decided that the ground of defense was a technical one and could not be sustained. Mr. Jacobus carried a policy for a number of years in the company for \$5,500, but a few months before his decease had by neglect of payment of assessments allowed it to lapse. Later it was taken up with the company and an agreement entered into that upon the payment of a certain sum, the policy was to be reinstated. Acting under this agreement the money was forwarded the company the day before he was taken sick. Mr. Jacobus' sickness was very brief and his death occurring so soon after the reinstatement of his policy gave the insurance company a plausible excuse for refusal to settle the loss. The case has been hanging in the courts for the past two years and reached a trial a few weeks ago, the decision being held under advisement by the judge until Tuesday. The judgment will amount with interest to \$6,000.

For the first time in the history of the Janesville Machine Company, that well known institution will close its doors, on or about July 1st, and over two hundred men will be thrown out of work.

This move was decided by the directors, after giving the matter considerable time and thought, the reasons for the shut-down being dull business, and the fact that the concern has a surplus stock on hand.

One of the stock holders stated to a Gazette man this morning, that the move was necessary owing to the stagnation of these good democratic times, and that the shut down would last at least two months so that when the work was renewed every department would be started in full blast.

"Trade this summer is much lighter than last year" he said, "and something had to be done. Rather than shut down in the winter time when times are the hardest we deemed it the best plan to wait until summer and then take a rest. We calculate to close the coming week."

## BAD BILL'S BREAK.

How a Revival Was Suddenly Closed in a Kansas Town.

"Bad Bill" was a well-known character in the west, and there are many stories told of his exploits, but one of the best has never been printed, and was related to a Washington Star reporter by a man who was present when it occurred.

Great Bend, Kas., now one of the best towns in the state, was at one time about the worst. This was when it was a railroad terminus before Dodge City was established.

A traveling evangelist went to Great Bend and tried to start a revival. There were a few Christians in town and these all attended the first meeting, the only one of the unregenerate being present being "Bad Bill," who took a front seat. Every one feared trouble when he walked into the church, but he sat there quietly during the exhortation. The evangelist requested all who wanted to go to heaven to stand up and every person present except Bill arose. When they were seated again Bill got up and, drawing two pistols, said:

"You say you want to go to heaven. Now, anything I can do to help this game along and give pleasure to the players I'm in for. You all want to go to heaven and I'll give you as good a chance as you'll ever have. The first man that gets up I'll give him a ticket clean through, without any stop-overs." The evangelist crawled under a seat and the members of the congregation laid on the chairs.

"Well," said Bill, "I see you wasn't in earnest, so we'll put out the lights and call this meetin' adjourned." On by one he shot out the lights and by morning the evangelist was on his way to Hutchinson, while the members of the congregation kept quiet and made no further attempts at holding a revival.

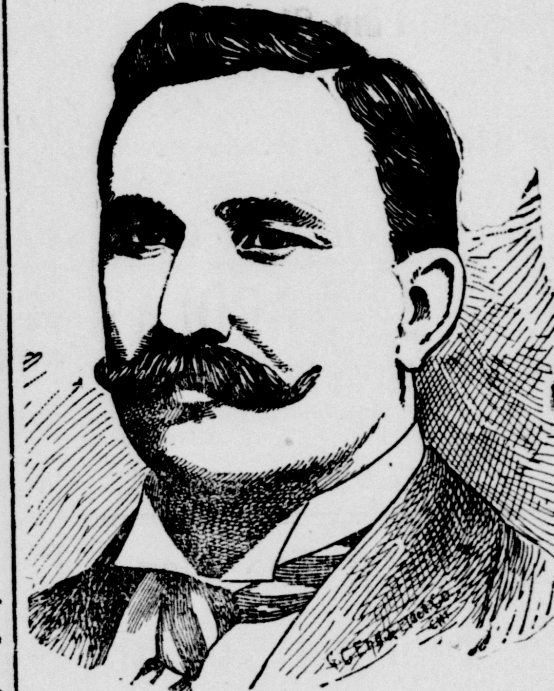

It has been held that consumption is hereditary, and the fact that one member of a family had died with consumption was considered a sure sign that others of that family could not escape it. This is partly true and partly untrue. A man with weak lungs is likely to transmit that weakness to his children. But there is no reason in the world why the weakness should be allowed to develop.

Keep the lungs full of rich, red, wholesome blood, and the weakness will disappear. Decaying tissues will be thrown off, and new material will be added until the lungs are well and perfectly strong again. This is the thing that Dr. Pierce's Golden Medical Discovery does. This is what makes it cure 98 per cent. of all cases of consumption where it is taken according to directions. It searches out disease germs, wherever they may be in the body and forces them out of the system. It supplies the blood with rich, life-giving properties. It makes the appetite good, digestion perfect. Sold by all medicine dealers.

## PARASOLS AND LINGERIE.

Light Silk Petticoats—Cheap and Pretty Nightgowns With Colored Collars.

A new fancy in parasols is adopted by many elegant women. The body of the parasol is of plain silk of a very light color, or white. Around the edge is a plaited flounce of gauze of the same color and another flounce is gathered around the center, falling upon the parasol. These are seen in straw, mauve, pale green and light blue, but the yellow tones, from clear yellow to palest maize, are considered the most up to date.

Light silks are employed altogether in fine petticoats. They are cut in the umbrella style—that is, a wide flounce reaching to the knees comprises the lower part, and on this flounce are arranged ruffles, lace and ribbons. A great deal of embroidery is used to make the petticoat stand out well. After silk comes muslin, rayon, or cambric in fashionable favor. The white petticoats are a mass of embroidery, lace and ruffles. There is a fancy for alternating thick embroidery with the very open kind, the latter having a band of colored ribbon run underneath.

This is the season of bargain sales in underwear, and some of the articles offered at a very moderate price are surprisingly

pretty and of good quality. A new style of nightgown was shown some time ago in the expensive grades, having a square cut neck and opening at the side. These nightgowns are now offered at a low price with less elaborate trimmings. Usually they have a collar of pink, blue, buff, mauve or green cambric and a ruffle of white embroidery, and for women who like colored lingerie nothing could be prettier. Sometimes the collar is of white percale with a small colored figure or stripe.

An illustration is given of a summer gown for a young girl. The skirt of batiste is of the shade known as anemone and is entirely covered with narrow ruffles of the same material. The blouse bodice is of anemone taffeta glaze, with a stole plastron of white batiste in which are set bands of white lace insertion. The edge is bordered with lace to match and the fancy collar is of white batiste and lace. The bouffant sleeves are shirred at the top of the arm and are finished at the wrist with two bands of insertion and two ruffles of anemone batiste. The soft belt is of taffeta.

## MATERIALS AND TRIMMINGS.

Coats of Antique Silk to Wear With Plain Skirts.

Printed mohairs and taffetas form some of the most charming of the many charming dress toilets worn in Paris. They have an immense vogue, being light and becoming and well suited to the frivolous form of attire now prevailing. Etamines are also in favor and other openwork goods demanding a silk lining. Silks of the antique style, printed or brocaded, form coats to be worn with plain or changeable skirts. As for fashionable colors, all colors are worn, but the preference is given to shades of green, blue and light gray. Black and

NOVEL COSTUME.

White in combination are also much seen. They are always effective together, and now that the idea of half mourning has become dissociated with their union there are few color arrangements more suitable to the majority of persons. The result of combining black and white may be either somber or striking, as the designer chooses. If large masses of each are used, the effect will be conspicuous, while hairlines and pin checks of black and white are demure enough for a Quakeress.

Black velvet ribbon is coming in again as a trimming and is used on both light and dark gowns. A pale green print muslin was very prettily trimmed with the narrowest black velvet, hardly more than an eighth of an inch wide. Of course it all must come off when the muslin is washed, but if the possessor is a woman of fortune, as she would need to be to buy so expensive a cotton gown, she will not have it washed, but will throw it aside as soon as it is soiled. Astonishing prices are asked for muslin and nainsook costumes even when they are made over a cambric or saten lining. When the lining is of silk, the charge is positively exorbitant.

The illustration shows a costume of gray drap d'ete and heavy guipure over white satin. The upper half of the gray cloth skirt is of guipure over satin. The blouse bodice is of guipure over satin and is plain behind, forming two round plaits in front that are retained at the top by jet buttons. The belt and straight collar are of gray cloth, the sleeves of guipure over satin. With this gown is worn a toque of black jet trimmed with a large bow of glaze red and mauve taffeta. JUDIC CHOLLET.

## THE SIBERIAN RAILWAY.

Reasons Why the Russians are Pushing Through the Great Work.

Siberia is a Russian Canada, larger and more populous, and, like Canada, it has a great future before it, says the Fortnightly Review. It is very rich in gold, while there are whole hills of graphite (black lead) and lapis lazuli; coal can be picked up on the very road near Nerchinsk, there is silver in the same district and there are rich mines of iron near Nikolaevsk. Siberia, like Canada, is rich in fish. On the Amur river I was told that 200,000 puds of fish have been caught within a few weeks in August, when the fish ascend the rivers, the pud (pood) being forty pounds, that means 8,000,000 pounds of fish. In the Khabarofka museum is a stuffed kaluga fish weighing thirty puds, or 1,200 pounds, caught in the Amur.

The Russians have been struck by the fact "that the prosperity of Canada and its productive activity have grown, and continued to grow with a rapidity which appears to us (Russians) miraculous, and by its inimitable, just from the date of the completion of the Canadian Pacific railway from the Pacific to the Atlantic ocean." (I quote from an official report in Russian.) In 1880 they deputed two engineers to observe the Canadian line and its conditions and results. Attention in Russia was drawn to the facts that Canada, a country then of 4,000,000 people, had, by its own resources, without any pecuniary help from outside, connected the two oceans by an iron road 4,500 versts (3,000 miles) long, over very difficult and expensive ground for building, in the short time of four years; that the energetic population of Canada, 3,600,000 in 1871, and only increased to 4,300,000 in 1881, reached 5,000,000 a year or two after the first through train passed Winnipeg in 1886, that the quantity of grain carried in Canada had increased from 303,571 tons in 1886 to 500,000 tons in 1888; that in places without population there had risen seven new towns, such as Vancouver, founded only in 1886, and holding 9,000 inhabitants in 1891. It was made known to Russia that "compared with those of the Canadian railway, the technical conditions of the building of a Siberian railway were incomparably more favorable, and that the cost of the latter should not be even 65 per cent of the cost of the Canadian Pacific."

## THE ICE AGE.

There Were Cold Days in Those Times of Universal Frigidity.

For centuries the north was an ice-locked land and conditions of life had changed, says Lippincott's. From the pole to the southern ice limit not one mountain projected its head above the unbroken snow; even Mount Washington was deep down under the surface. Manhattan island lay buried at least 1,000 feet under ice; a wild, weird stillness rested over this favored spot, interrupted only by the crashing of the ice as pieces broke from the end of the glacier beyond the narrows and, as icebergs, floated out to sea.

Ages had now passed since man first appeared in his primeval home. Some progress the race had made, but man was still a rude and untutored savage, his crude weapons were only pieces of roughly chipped stone, but it was man with progressive and endless mind. And as years passed the rude paleolithic ancestor gave place to men with a higher degree of primitive art; flint-tipped arrows and axes of stone now gave man the mastery over every animal; food was no longer a matter of chance, but a matter of skill. Still, at war with the elements, wild beasts and savage neighbors, it was a fearful struggle; the world at the best was then no garden of Eden.

For 20,000 years or more the ice, with its various advances and retreats, covered the north. Then began its final departure, but it was probably as slow in going as it had been in coming. The land began to gradually sink, the winters became milder and the summers longer.

## NO CONSUMPTIVE WILL DIE

So Long As He Can Digest and Assimilate Food.

All physicians admit this. Yet here the difficulty begins. How can we build up the consumptive's body as fast as the disease tears it down? Let us consider.

Cough mixtures must be avoided because they frequently contain opiates which arrest the digestion. Their only effect on the cough is to stupefy the nerves. Let them alone.

All foods that are hard to digest must be avoided, especially fats and oils. Only those foods which are easily digested and assimilated should be eaten. Foods not thus accepted by nature do no good; they do harm. Not what is merely eaten but what is assimilated and digested gives flesh and strength.

Consumption is starvation, slow or rapid, as may be. The first symptom is, not necessarily a cough, but a tendency to lose flesh, to grow thin. Stop this tendency now. Don't wait for obvious lung trouble. That's only a later development—only a minor point.

Stop the wasting and you master the disease—even though it may have made some slight inroads already. Increase the flesh and the danger is past.

What is needed is an especially-prepared food—a nutriment in itself and a digester of other foods.

Such an article is the Shaker Digestive Cordial, made by the Shaker Community, of Mt. Lebanon, N. Y. It creates a natural appetite and insures the digestion of what is eaten with it. It overcomes the wasting which is fatal in the consumptive process.

A man may lose money and not die a bankrupt. One may have consumption and not die of it. This is science and sense. The success of this new remedy proves it.
